

Join **United Spinal Association** in building a world where **all wheelchair users** can realize their **full potential**.

We are the largest membership organization dedicated to empowering wheelchair users to discover greater independence and quality of life. We directly serve people with spinal cord injuries/disorders, all wheelchair users, and their loved ones by providing free resources, one-on-one guidance, comprehensive programs and services, and peer support.

We are united in our belief that people with disabilities have the right to equal opportunities in all facets of society. Together, we fight to overcome the stigma of disability and remove physical barriers to inclusion so that people with SCI/D can pursue their goals.

ACCESSIBILITY SERVICES: We train design professionals, review architectural plans, and inspect the **built environment** to ensure full inclusion for everyone.

ADVOCACY & POLICY: We ensure **positive policy changes** for our community by supplying language for laws and regulations and energizing our expansive grassroots network. We also advocate as an organization for **disability justice and rights**.

COMMUNITY SUPPORT: We provide **information and resources** to thousands of wheelchair users, their families and service providers so they can attain the highest quality of life.

CHAPTER NETWORK: Our 50 self-sufficient, **active chapters nationwide** connect our members to local programs, resources, and recreational activities.

NEW MOBILITY: Our **membership publication** embodies the truth that living with a mobility device can be rich, rewarding and fulfilling.

PEER SUPPORT & MENTORING: Our **national network** of over **530 peer mentors and 200 Peer groups** support wheelchair users to navigate life with a disability successfully.

PATHWAYS TO EMPLOYMENT: We provide guidance, **resources and support** to wheelchair users **seeking employment** and employers seeking to **hire people with disabilities**.

READY TO ROLL: Our innovative **emergency preparedness program** gets resources directly to wheelchair users affected by all types of disasters so they can more quickly rebuild their lives.

TECH ACCESS INITIATIVE: Our Tech Access Group and Tech Access Council work in tandem to develop and test products that are accessible to everyone. We work with the tech industry to **make sure technology is inclusive**.
